Completeness Lambert Stock

It is manifestly impossible to present even a partial idea f the completeness of the LAMBERT assortment in any advertisement or series of advertisements. From the hundreds of new friends visiting our store we know that we have spread broadcast a feeling of confidence which is and has been for twenty-six years the life of our business. There is nothing known to the Jewelry or its accessory lines which may not be found in the LAMBERT cases. The assortment is not confined to the most elaborate nor to the simplest pieces. The scope of prices extends from solid Gold Dumbbell Link Buttons at \$1.75 to Diamond Earrings worth \$1,500 and upward. There are Diamond Brooches and Link Buttons from \$7.50 upward, and Solid Gold Brooches from \$2.50 upward. In Watches we have small Swiss Chatelaines at

\$3.25. We do not advertise them extensively as being "worth so much more," because in our store they are worth just \$3.25. We do add, however, that they are better than anything else in the market at the same price, because each one is taken apart in our establishment and properly put to gether and regulated. We have
